

# **HIPower Series**

144-CELL HALF CUT MONOCRYSTALLINE **SOLAR MODULE** 

## 450 Watt

STPXXXS - B72H/Vnh

#### **Features**

#### High power output

Compared to 158.75mm module, the power output can increase 25W-30W

More power output in weak light condition, such as haze,

cloudy, and morning

#### **Extended load tests**

Module certified to withstand front side maximum static test load (5400 Pascal) and rear side maximum static test loads (3800 Pascal) \*

#### **Suntech current sorting** process

System output maximized by reducing mismatch losses up to 2% with modules sorted & packaged by amperage

#### Lower operating temperature

Lower operating temperature and temperature coefficient increases the power output

#### Withstanding harsh environment

Reliable quality leads to a better sustainability even in harsh environment like desert, farm and coastline

#### Trust Suntech to Deliver Reliable Performance Over Time

- World-class manufacturer of crystalline silicon photovoltaic modules
- Unrivaled manufacturing capacity and world-class technology
- Rigorous quality control meeting the highest international standards: ISO 9001, ISO 14001 and ISO17025
- Regular independently checked production process from international accredited institute/company
- Long-term reliability tests
- 2 × 100% EL inspection ensuring defect-free modules

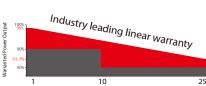

#### **Special Cell Design**

The unique cell design leads to reduced electrodes resistance and smaller current, thus enables higher fill factor. Meanwhile, it can reduce losses of mismatch and cell wear, and increase total reflection.

#### **Industry-leading Warranty based on nominal power**

- 98% in the first year, thereafter, for years two (2) through twenty-five (25), 0.55% maximum decrease from MODULE's nominal power output per year, ending with the 84.8% in the 25th year after the defined WARRANTY STARTING DATE.\*\*\*\*
- 15-year product warranty
- 25-year linear performance warranty

#### **IP68 Rated Junction Box**

The Suntech IP68 rated junction box ensures an outstanding waterproof level, supports installations in all orientations and reduces stress on the cables. High reliable performance, low resistance connectors ensure maximum output for the highest energy production.
